

## OPTIONAL EXTRAS

### WHEELS AND TYRES (GERMAN TÜV APPROVED) - 001

All Kahn wheels are designed to be original, innovative and ground breaking. Manufactured in the heart of Italy's automotive region, Kahn design's softly sculpted alloy wheels are engineered to have the strength and rigidity to withstand the most rigorous testing in the world adhering to German TÜV requirements. Hundreds of hours are spent testing each wheel to ensure maximum performance and durability. Each unique creation is a testament to Kahn Design's technical excellence extracting the most out of the finest grades of aluminium alloy, which are used in the formation of each wheel. All Kahn wheels are machined for a perfect fit with vehicle specific applications.

Kahn Design, creator of the worlds finest wheels.
