

ABT TT

ABT[®]

ABT AR sports wheel.
Diamond-machined with exclusive finish. Optimized in weight, painted anthracite. A class of its own.

ABT BR sports wheel.
Diamond-machined or high-gloss polished, with optional concealed valves, weight optimized and providing perfect handling.

THE NEW ABT TT COUPÉ.

SIMPLY A FUN CAR.

In the year 2002 at the latest ABT had developed a very special connection with the sports coupé made in Ingolstadt. That was the year in which Laurent Aiello won the DTM-title in the famous yellow ABT TT-R for ABT Sportsline. Right from the start the tuners from Kempten, in the south of Germany, also gave an enthusiastic reception to the follow-up to this successful model – and, with the new ABT TT-R, have yet again forged a real star: 360 hp (272 kW), from 0 to 100 km/h in 5.0 seconds. Racing sensation straight from the track to the road. But the ABT tuners also give the series production models a helping hand from both the technical and optical points of view. With clever engine management and dynamic design. For an incomparably fast start, unforgettable performance and above all else for unparalleled driving pleasure.

AUDI TT (8J) / TT ROADSTER	SERIES	ABT PERFORMANCE
ABT INTELLIGENT SPORT		
2.0 I TFSI	147 kW (200 hp), 280 Nm	177 kW (240 hp), 330 Nm

370 HP, 400 NM ABT TT

BASIS: Audi TT Coupé 3.2 V6; 250 hp, 320 Nm

THE NEW ABT TT ROADSTER.

THIS LEAVES NO WISHES UNFULFILLED.

What could renowned car tuners find more appealing than a car that is virtually perfect as it is? ABT was only too happy to accept the challenge of dressing Audi's new roadster gemstone into a perfect jewel. Powerful engines, brilliant technological features and sporty, elegant outfit turn the new ABT TT Roadster into a real treasure for the discerning open air fan.

ABT rear skirt set. Inclusive of ABT 4-pipe rear muffler.

ABT rear wing. Dynamic and tasteful elegance.

ABT engine tuning. A true power package: ABT Power R, the perfect combination of chip tuning and compressor.

ABT BR sports wheel. Diamond-machined or high-gloss polished, with optional concealed valves, weight optimized and providing perfect handling.

MORE POWER. MORE FUN. GUARANTEED.

ABT ENGINE TECHNOLOGY

The requirement to bring out the best in every engine is part of ABT's family tradition. Whether the task in hand is chip tuning (**ABT POWER**), optimization of the engine electronics plus turbo charger (**ABT POWER S**) or compressor (**ABT POWER R**) – where performance upgrades are concerned we are in our element and clearly the world's number one for cars by the VW group. Thanks to the experience we have acquired in our many years of professional racing, we are aware that not only power is important, but also durability.

ABT AERODYNAMICS

If you rate extraordinary dynamics as high as individuality, then you have found the perfect pit crew in the ABT team. Our designers, engineers, technicians and model makers work hand in hand, and the result is definitely highly respectable: a tuning program developed by our company, from the front grill to the rear wing, which we can use to transform your series production vehicle into an impressive character performer.

ABT EXHAUST TECHNOLOGY

Impressive power is turned into optical and acoustical enjoyment: Thanks to extensive development work and double-walled stainless steel design, ABT exhaust systems and rear mufflers always put on an impeccable performance. The particular masterpiece: diesel rear mufflers specially designed for selected cars which make the diesel models' usually rather subdued voices considerably more impressive.

ABT SUSPENSIONS

It is only the right suspension that makes higher engine power pure pleasure. Also in this field we bring our entire racing experience and hence absolute cutting-edge technology onto the road. ABT suspension springs lower the vehicle and provide for dynamic looks and more stable road holding. In addition, ABT adjustable sport suspensions can be adjusted in height and, depending on the version, also in rebound and compression.

ABT BRAKES

Driving in a sporty way is great fun but only if you know for sure that any time you want you can bring your car to an immediate standstill. ABT steel-flex brake lines are tested constantly under severe conditions and therefore provide this feeling of certainty. With an ideal pressure point, excellent regulable application and an optimal braking distance – but with significantly less fading, in other words: no decrease in braking power under long-term stress. Thus, ABT brake systems bring everything reliably to a standstill. Except, of course, your driving pleasure.

ABT SPORTS WHEELS

Elegant or dynamic, modern or classical, silver or titanium – but always professionally balanced down to the last detail as far as weight and handling are concerned – ABT sports wheels perfectly round off the individual performance of your car. After all, they clearly show at a glance that they conform with the highest of demands both on the road and on the racing track and that they do not only look good but also want to be driven.
